

ISAO in a Box

The International Association of Certified ISAOs (IACI) assists members to rapidly build a first-class cyber threat Information sharing community

Information Sharing and Analysis Organizations (ISAOs), are entities formed to share cyber threat information with its trusted community. ISAOs may be formed based on region, sector, sub-sector, or any community of interest.

IACI's ISAO in a Box allows perspective ISAOs to obtain expert guidance, organizational support and cyber intelligence to cost effectively manage the growing cybersecurity threat. IACI assists organizations to rapidly move from concept to operations while assuring the greatest opportunity for business success.

Planning

Building

Managing
